**The Patrons
(PAT) Project**

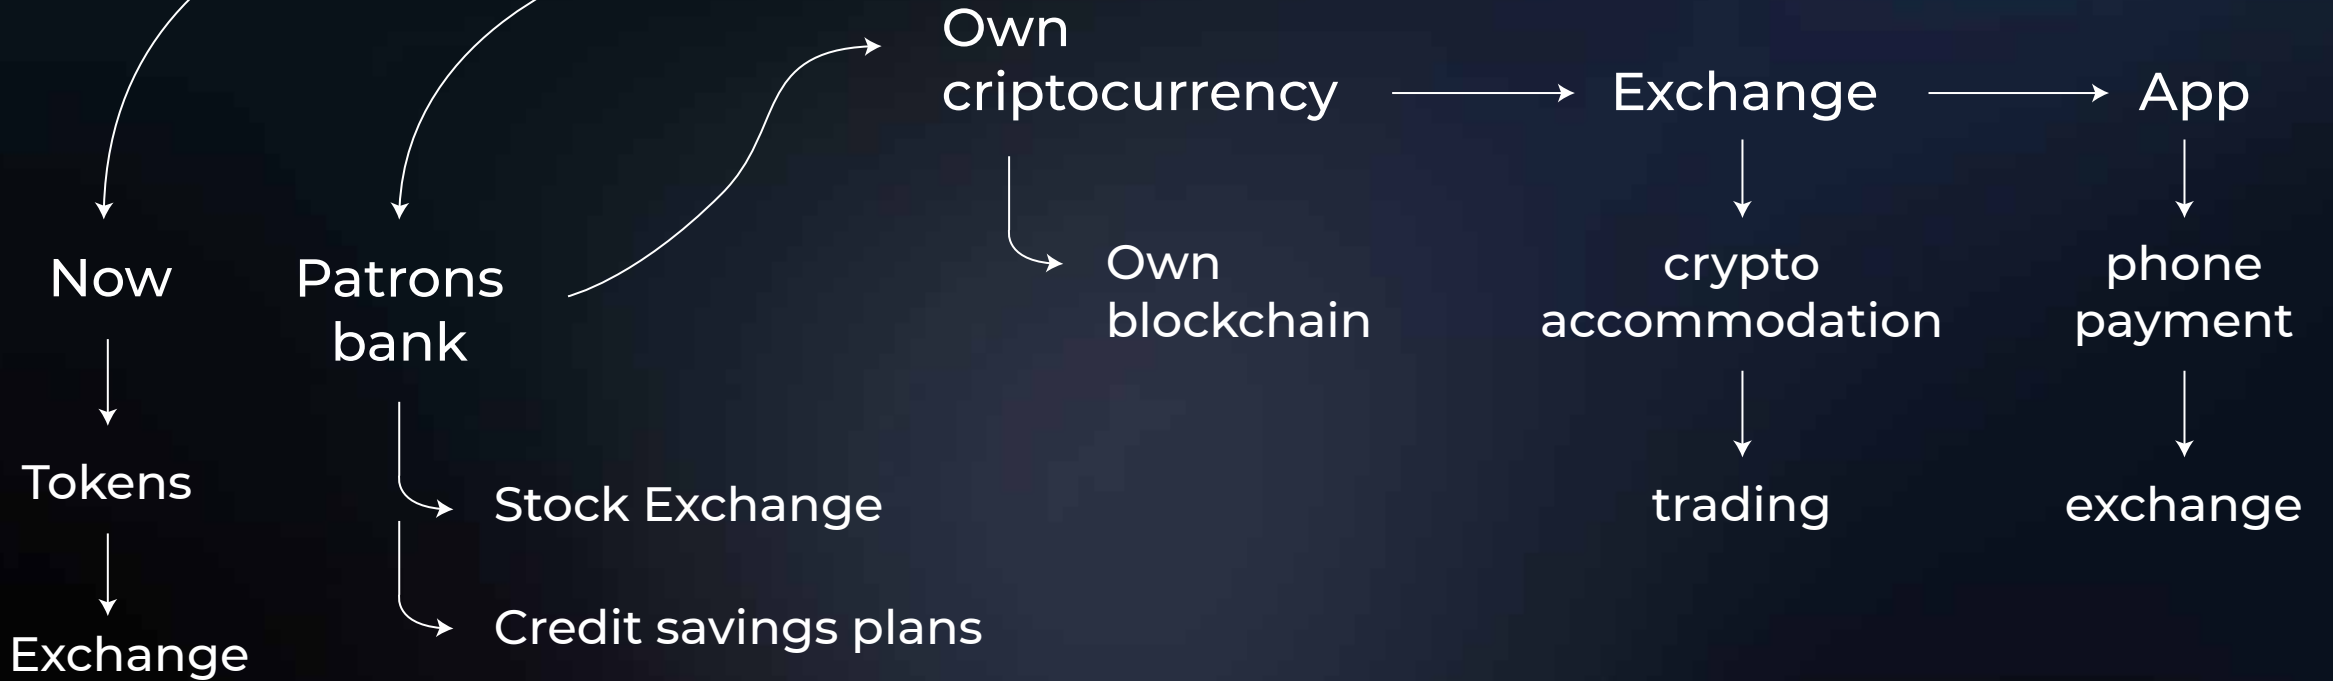

A new and innovative
pathway for exchange
currency trading.

Blockchain and Beyond

Patrons project

It is its infrastructure with the currency exchange and the App for easy and distributed user mobilization that is the essence of this project. The App and payment infrastructure will first be utilized through our own Patrons currency, but it will open for others to ensure a global reach.

AN ECO SYSTEM FOR EVERYONE, EVERYWHERE

- **Patrons is a coin for everyone** – used as a currency equal to fiat currency
- **Providing our customers with unique services** – specialized for the cryptocurrency market (app, banking/credit) which there is a high demand for

= Democratize Global Payments

This Presentation aims to introduce key components of our solution, progress and foundation for collaborations. We look forward exploring how we may accommodate and find common grounds in a decentralized payment system, the world has not seen before.

Growing the Eco System

1. Sale of patrons
2. Release Patrons on exchange
3. Release Swap
4. Exchange based on Patrons
5. Establish own blockchain connected to Patrons, Swap, exchange and online bank
6. Establish Crypto shops
7. Establish physical bank
8. Establish online bank services

Licensing fees for all of the above will give shareholder income for all transactions made.
